

Elide circle 2022

Elide circle represents the crystal chandelier par excellence, the timeless classic with a strong decorative impact. The irregular length of the crystal chains is its special feature and makes the lamp even more unique and unrepeatable; Like a cascade of ice stalactites, so Elide circle descends with great naturalness from the ceilings of houses of any style and time.

Details

Each lamp is a unique piece, handcrafted by expert Italian artisans who certify the authenticity of Made in Italy every day.
